

## Desire2Learn Binder App for the iPad

“Desire2Learn Binder is a powerful and intuitive document reader that enables you to interact with PDF, Microsoft® Office™ files, HTML, and much more – right on your Apple iPad. Whenever, wherever.” (from <http://desire2learn.com/products/mobile/binder/> )

One of the challenges students and faculty face with Binder is the installation and setting up an EduDentity account. It is also not clear to users which UW Colleges URL to use to connect to our Desire2Learn instance. This document should clear that up.

Note with Binder you need to authenticate with EduDentity to pass info to Desire2Learn’s cloud AND with UW Colleges to log into our D2L instance.
