If your courses for summer and/or fall were set up before the upgrade you might need to change your nav bar and/or course homepage. Follow these instructions to make the necessary changes.

1. If your Nav bar looks like the one below or the (Green and Blue Nav bar) hover over the navigation bar and an icon that looks like a gear will appear to the left of the UW Colleges logo. Click on that icon.

2. On the screen that appears, click on the arrow, next to “Course Default” and change it to “UWC_2012_Default_Course_Navbar.” Then click on the “Apply” button.

3. Click on Course Home and the new Navbar should be visible, as shown below.
4. The Course Home Page has a new look as well. It should look like this:

![Course Home Page](image)

5. To change your home page to the view shown above, scroll to the bottom of your home page and click on the gear icon - ![Gear Icon]

![Active Homepage](image)

6. Fellows – 7/2/2012
Click on the small arrow. Next select “Course Default – V10” as your homepage.

Finally – click on the “Apply” button.

7. Click on “Course Home” and your new homepage should have two columns, a narrower column on the left and a wider column on the right.

8. Should you have any difficulty making these changes, contact the Service Center and ask for assistance with D2L nav bars and/or homepages.
